VOLA VOLÈ, WINES BIODIVERSITY AND BEES FRIENDS

AGRICULTURAL PRACTICES IN OUR VINEYARDS ARE CERTIFIED BY THE WORLD BIODIVERSITY ASSOCIATION, IT HELPS TO INCREASE BIODIVERSITY, TO IMPROVE THE QUALITY OF AIR, WATER, SOIL QUALITY AND THE PRODUCTS WE GROW AND TO ALLOW BEES TO LIVE SAFE AWAY FROM PESTICIDES.

IT HAS ALWAYS BEEN A MYSTERY WHERE YEASTS ON GRAPE SKINS WILL OVERWINTER AND HOW THEY RETURN OVER YEARS. IN 2012 IT WAS DISCOVERED THAT YEASTS SURVIVE THE WINTER INSIDE THE DIGESTIVE TRACT OF HYMENOPTERA (ORDER OF INSECTS TO WHICH ALSO BEES BELONG).

SURCE: EDMUND MACH FOUNDATION, UNIVERSITY OF FLORENCE AND INSTITUT DE GÉNÉTIQUE MOLÉCULAIRE DE MONTPELLIER

AS A TRIBUTE TO THIS DISCOVERY

FERMENTED WITH SELECTED YEASTS
FORM LOCAL FLORA POLLEN

VOLA VOLÈ IS A BRAND OF CANTINA ORSOGNA 1964 VIA ORTONESE, 29 - 66036 ORSOGNA (CH) ITALIA
